

Gunjan Bandekar

Data Analyst & Treatment Coordinator

gunjanbandekar20@gmail.com | <https://www.linkedin.com/in/gunjanbandekar1320/>

PROFILE

Data Analyst and Treatment Coordinator currently working at Happy Kids Dental Clinic, with Business Analyst experience across healthcare and banking. Skilled in SQL, Python, Power BI/Tableau, requirements gathering, and AI-driven analytics.

EXPERIENCE

Data Analyst & Treatment Coordinator

Happy Kids Dental Clinic | July 2026 - Present

- Supporting clinic operations and patient care coordination as Data Analyst and Treatment Coordinator.
- Analyzing clinic operational and patient data to support decision-making.
- Building reporting and dashboards for clinical and admin stakeholders.
- Identifying process improvements through data-driven insights.

Data Analyst

Mint Dental Clinic | April 2025 - May 2026

- Delivered data analysis and reporting to improve clinic performance visibility.
- Supported stakeholders with actionable insights from operational datasets.
- Documented analytical workflows and improved reporting consistency.

Business Analyst (Internship)

HDFC - Pune, India | May 2020 - September 2024

- Led requirements gathering with C-level stakeholders and designed an AI-powered BI platform with executive dashboards; reduced insight delivery time by 80% and improved accuracy for complex business queries by 35%.
- Designed predictive analytics models on Azure and automated reporting workflows with regional sales managers; increased sales prediction accuracy by 10-13% across regions.
- Developed a user-friendly anomaly detection system and trained business users to identify key performance drivers within seconds.
- Designed reusable AI integration architecture and deployment protocols enabling rapid AI solution rollout across 5+ enterprise clients.
